"KONGO'S" ARRIVAL IN NEW YORK

Tremendous Crowds See the Big Beasts Lowered from the Boat.

LARGEST ELEPHANT KNOWN

This Big Elephant, Captured Last Season, Now Exhibited with Yankee Robinson.

The scenes attending the arrival of the largest elephant ever known, "Kongo," were most remarkable. From the time the people of this country, some twelve months ago, read of the capture of Kongo, there has been a curiosity to see this huge beast. At the "round-up" of elephants, in Siam, last spring, there were twenty-three elephants captured—this being the entire haul for the season. Among the few held last season, was the real monarch of the Jungle—an elephant that has been the goal of every hunter to the forest for years. This big beast was Kongo. Immediately the concessionaries of the San Francisco Exposition cabled to secure this big beast for the wonderful tamed animal exhibit they will have there during the fair. The promoters of the Yankee Robinson shows happened to have Mr. Harvey Hale, their European representative in Siam, at the time of this offer. Without any conferring with the owners of the big circus, he secured this big beast (for an enormous rental) for the coming season. It is expected that the principal cities of the country will be visited by the show during that time.

The arrival of Kongo in New York, as stated above, was witnessed by tens of thousands of people. He was lowered from the vessel by means of a large car, heavily ironed and secured with enormous chains. As the big steam derrick hoisted Kongo in the air, to be lowered to the harbor, he emitted a terrific "howl" of the desert. This is a noise peculiar to this specie of animals in extreme fright. He was immediately taken to the yards of the Pennsylvania Ry., where, in a specially constructed car he was brought to the Yankee Robinson shows. The unloading from the cars of this enormous beast is well worth your time. Kongo is unloaded usually about six in the morning and taken to the lot immediately. The Yankee Robinson shows will show here Monday, September 15, 1913.
